1. INTRODUCTION

1.1 Overview

Thank you for administering the National Assessment Program – Literacy and Numeracy (NAPLAN).

This handbook focuses on the procedures for administering the NAPLAN tests. It is important that you are familiar with the procedures in this handbook and that you read the relevant script to students when administering tests. The scripts contain important information for students and ensure national consistency in test administration (see section 2.6 *Reading the test administration script*).

Your role in the administration of the tests is critical. Standardised administration of the tests contributes significantly to the fairness and reliability of the assessment tasks. It is important that these administration instructions are followed carefully and that a positive and calm atmosphere is maintained throughout the test sessions.

To administer the online NAPLAN tests, you need to be familiar with the platform, including how to:

- use the test administrator’s dashboard to create a test session and monitor students’ progress
- manage test sessions.

It is a national requirement that all test administrators have sufficient training (see section 8.4 of the *NAPLAN national protocols for test administration*) in the administration of the online tests.

Test administrator online training modules are available. Your NAPLAN coordinator will have more information on how to access the training modules.

You will also find detailed instructions on using the platform and test administrator’s dashboard in the ‘Resources’ tab available at assessform.edu.au

You should also refer to the *Quick reference guide – Test administrator* provided in your welcome pack.

If you have any questions before, during or after the NAPLAN tests, seek advice from your NAPLAN coordinator.

1.2 Test dates

Dates		Year 7 and 9
NAPLAN test window	Monday 10 March – Tuesday 11 March	Preparation only – NO tests permitted
	DAY 1: Wednesday 12 March	Writing Reading <i>(reading only after writing)</i>
	DAY 2: Thursday 13 March	Writing <i>(only to be used when technical/logistical issues prevent completion of testing on day 1)</i> Reading – Conventions of Language – Numeracy and catch-up tests (all domains)
	DAY 3: Friday 14 March	Reading – Conventions of Language – Numeracy and catch-up tests (all domains)
	DAY 4: Monday 17 March	Reading – Conventions of Language – Numeracy and catch-up tests (all domains)
	DAYS 5–9: Tuesday 18 March – Monday 24 March	Reading – Conventions of Language – Numeracy and catch-up tests (all domains)
	Test security period	Tuesday 25 March – Thursday 27 March

1.3 Catch-up test sessions

Catch-up sessions are test sessions made available to students identified as absent by the school they are enrolled in on the day of their scheduled NAPLAN test.

Catch-up sessions are not available to students who have already logged into a session and have started a test. Catch-up sessions do not have to be provided to visiting students attending a host school.

1.4 Rescheduled tests

Rescheduled tests are made available for students who log into a test session and start a test, but who:

- leave the test due to illness (i.e. a medical or social/emotional condition) or injury
- experience technical difficulties and are unable to continue their test
- cannot complete their test due to a disruption.

These students’ test attempts should be paused by the test administrator and then moved to the “Postponed” status on the platform by the NAPLAN coordinator. They should be rescheduled to a new test session, for the students to resume their tests. The test administrator **must not** “Finish” these test attempts or finalise the test session on the test administrator’s dashboard. “Finalising” a test session automatically submits the tests within that session for marking. Schools cannot re-open test sessions that have been “Finalised”.

2. PREPARING FOR THE TESTS

2.1 Before the test day

Your role as the test administrator is to deliver the NAPLAN tests to students. As part of your role, in the weeks before the test, the school's NAPLAN coordinator will meet with you to:

- provide you with access to the NAPLAN Training and Practice environment to ensure you know how to use the test administrator's dashboard and the NAP locked-down browser
- ensure that you are familiar with all the test administration instructions and procedures
- ensure you are aware of and able to manage any disability adjustments provided to the students in your session
- ensure all support people and scribes are aware of the test administration protocols such as what can and can't be read aloud, and scribe rules
- review procedures for emergencies and test disruptions, including how to seek technical assistance for online tests
- determine where the test sessions will be held
- plan the configuration of the test room(s) so that students will not be able to see each other's work. Where the tests are to take place in a collaborative workspace, devices may need to be moved or temporary barriers put up between students
- ensure that, on test days, there are arrangements to take down, cover or reverse any posters, displays or teaching materials that might help students with the tests
- confirm how you and the students will connect to the internet
- discuss the organisational procedures required during the tests, including procedures for students bringing their own devices (BYOD) if applicable
- confirm that all devices have passed the necessary device checks and that arrangements have been made to ensure the devices will be in the room, have the correct NAP locked-down browser installed, and will be fully charged and connected to the internet on the day of the assessment
- plan the organisational arrangements for non-participating students
- establish procedures if the test is to be administered by a casual, relief or supply teacher, or NAPLAN support person.

2.2 On test days

Prior to commencing the online tests, please ensure you have all materials required for the test session including the device that you will use to administer the test. Your NAPLAN coordinator will provide you with a test administration pack that includes:

- the test administrator session slip (TA session slip) for the test session you will be administering (this will contain the test administrator session login details)
- student session slips for all students participating in the test session (these slips have each student's name and their unique student code for students to access each test)
 - NAPLAN coordinators and test administrators should ensure that where students in the same Year have the same name, the correct student slip is matched to the correct student. This can be confirmed by referring to the students' DOB in the platform and checking that this matches the student session code on the slip.
- a list of students allocated to the test session, including details of any students who have been allocated disability adjustments (note that students with a hearing impairment may require assistance from you or a support person while logging in)
- information on how many students are expected to bring their own devices
- contact details for your school's technical support officer, your NAPLAN coordinator and the NAPLAN helpdesk
- this NAPLAN test administration handbook
- notepad and pen.

Allow enough time to set up the devices and the room, including removing posters, displays or teaching materials that might help students with tests. Work with your NAPLAN coordinator and available IT support, as required.

2.3 Supervising the test sessions

In supervising the tests, you **must**:

- ✓ deliver the instructions accurately
- ✓ encourage student participation
- ✓ actively monitor student conduct by regularly walking around the room and checking that students are not talking, collaborating or using prohibited items as listed in section 3.3 below
- ✓ actively monitor the test administrator's dashboard and ensure all flags or warnings are actioned as required.

It is **not permitted** for any person to take photographs or video recordings in test rooms while tests are in progress, unless directed by the TAA.

2.4 Adjustments for students with disability

See section 6 of the *NAPLAN national protocols for test administration* for further information on disability adjustments. The NAP website (nap.edu.au/naplan/accessibility) also contains useful information including scenarios and videos to support students with disability to access NAPLAN.

Students with disability may be granted adjustments such as extra time, rest breaks and/or alternative test items. Adjustments should reflect the kind of support and assistance normally required for assessment in the classroom, and be documented in the student's individual learning plan. Prior to the start of the tests, the NAPLAN coordinator will enter the relevant disability adjustment code(s) (DAC) for these students against their profile in the assessment platform.

You must contact your NAPLAN coordinator prior to the test session or immediately after you become aware of any error in the printed list of students allocated to the test session they have provided you. This includes if, before the test starts, you notice a DAC is either not assigned or is incorrectly assigned to a student, or if a student enters the test and realises they don't have the appropriate adjustment, or they have an adjustment that they are not expecting.

See Appendix 2 for a table of DACs and actions required by the test administrator in relation to disability adjustments.

NAPLAN scribe rules

Section 6.11 of the *NAPLAN national protocols for test administration* outlines the circumstances in which a student can access a scribe for the writing test. The test administrator and scribe must both familiarise themselves with section 6.11.

A writing test scribe is not permitted where a student has a temporary injury, and will NOT be approved by the TAA.

Below is an extract from section 6.11.9 of the scribe rules, which outlines the practical steps that the scribe must take during the writing test.

Step	Action	Directions
Step 1	Log in to the test	The scribe may log in to the test for the student if necessary.
Step 2	Type an acknowledgement	The scribe must type the following words at the beginning of the document: <i>This student has approval for a scribe and all scribing rules are acknowledged.</i>
Step 3	Type as dictated by the student	<p>After allowing the student time to reflect and consider, the scribe will type as the student dictates. The scribe will type word for word to reproduce the student's own language.</p> <p>Except as and where dictated by the student, the scribe must type:</p> <ul style="list-style-type: none"> • without inserting any punctuation • all words in lower case • all sentences in a block without inserting paragraph breaks. <p>The student may read, or request the scribe to read, the text back throughout the test for the purpose of maintaining continuity. However, the scribe should not lead the student to re-read the scribed text.</p>
Step 4	Administer spelling test	<p>A spelling test must be performed before the student can be given the scribed text to proofread and edit.</p> <p>At the completion of the writing test time, the test administrator will need to add an appropriate amount of time for the spelling test. A test administrator should use their professional judgement when adding time.</p> <p>For the spelling test, the scribe will select 4 simple words, 4 common words and 4 difficult words that have been used in the scribed text and ask the student to orally spell each one. The scribe will scroll past, or in an alternative format (paper) test, cover up the scribed text and record the student's oral spelling of each of these 12 words in a space below the text.</p> <p>Where the student's text does not contain 4 difficult spelling words, the scribe should select additional common words to make up the 12 words.</p> <p>When completed, the scribe must ensure the student can only see the 12 spelling words and must ask the student to check these words and indicate any change that the scribe should make.</p> <p>When the test is over, the scribe will type the selected words in brackets next to each of the words spelt by the student to avoid any confusion during the marking process.</p>
Step 5	Editing time	<p>If necessary, the test administrator will add an appropriate amount of time to the student's test attempt for the student to edit their work. A test administrator should use their professional judgement when adding time.</p> <p>During the editing time, the scribed text is given to the student to proofread and to indicate where punctuation is to be placed, if not indicated by the student in their original dictation. The scribe will then type the capitals, full stops, paragraphs, etc. into the scribed text as directed by the student.</p> <p>During this time the student may also indicate any changes or additions to the scribed text, and the scribe will enter these where indicated by the student.</p>

2.5 Assisting students

Professional and ethical behaviour in accordance with the *NAPLAN national protocols for test administration* is expected in all aspects of each test's administration. Any additional support given to a student that advantages them in any way is considered a breach.

Your NAPLAN coordinator should provide you with a copy of the *NAPLAN national protocols for test administration*.

You can also download a copy from the NAP website:

nap.edu.au/naplan/school-support/national-protocols-for-test-administration

During **all** tests, you **MAY**:

- ✓ read and clarify general instructions (as indicated by the **READ ALOUD** shaded boxes in this handbook – see below)
- ✓ remind students of the way to respond to particular item types (for example, that they need to select an answer, type an answer or place tiles into the correct order)
- ✓ remind students how to change their answer, if necessary
- ✓ remind students how to navigate through the platform (without navigating for them)
- ✓ remind students how to access different aspects of the platform (for example, ruler, timer, magnification, audio player)
- ✓ advise students to leave a question they are unsure about and to move on to the next question
- ✓ remind students how to flag a question they may want to return to
- ✓ where there are no locked sections of the test, advise students to return to any unanswered questions (including reminding them how to see which questions were flagged and how to navigate back to them)
- ✓ where tests are locked between parts (all conventions of language tests and Years 7 and 9 numeracy tests), advise students to return to any unanswered questions before moving on. Once they move forward, they cannot go back to the previous section
- ✓ provide general encouragement to continue.

During all tests, you **MUST NOT**:

- ✗ take photos of students, test questions or any other test material, unless directed by the TAA
- ✗ give hints or examples
- ✗ explain, paraphrase or interpret questions, including translating questions into another language or dialect
- ✗ indicate to students whether answers are correct or incorrect
- ✗ remind students about related work completed in class
- ✗ provide extra time (unless provided as a disability adjustment or because of a documented disruption during the test session)
- ✗ navigate through the platform for the student or in any way manipulate the mouse, keyboard or screen on behalf of the student.

The following table provides additional information for each test domain:

Domain	You MAY:	You MUST NOT:
Writing	<ul style="list-style-type: none"> ✓ remind students how to use the audio player 	<ul style="list-style-type: none"> ✗ discuss the writing task ✗ provide any content information, whether orally or in writing ✗ prompt students regarding the genre or writing task ✗ type for a student in Years 7 and 9 (note: a scribe can type for a student where the use of a scribe has been approved by the TAA)
Reading		<ul style="list-style-type: none"> ✗ read anything from the reading stimulus texts ✗ read any test questions
Conventions of language	<ul style="list-style-type: none"> ✓ remind students how to use the audio player (spelling section only) ✓ advise students to check answers in the spelling section before they move to the grammar and punctuation section as they cannot go back. ✓ ensure that students are managing their time appropriately, so they do not spend the whole test time on spelling 	<ul style="list-style-type: none"> ✗ read or sound out the spelling questions to the students ✗ read any test questions ✗ write any spelling words for students, on the board or elsewhere
Numeracy	<ul style="list-style-type: none"> ✓ remind students to use the audio player if they need help with reading the questions ✓ read any words, numbers or symbols that are embedded within text unless they are italicised and relate to numeric value – see examples below ✓ advise students to check answers in the non-calculator section before moving to the calculator-allowed section as they cannot go back 	<ul style="list-style-type: none"> ✗ read numbers or symbols unless they are embedded within text – see examples below ✗ read italicised words that relate to numeric values ✗ explain the meaning of any symbols, numbers or mathematical terms ✗ interpret any graphs or diagrams

The literacy demands of the numeracy test should not exclude a student from accessing the test. You should encourage students to access the audio player for the numeracy test if their literacy standard is a barrier to access.

The following examples in the numeracy test show what **may** and **may not** be read aloud to students:

Example	Description
1	<p>The numbers and symbols in this question must not be read aloud as they are not embedded within text.</p> <div style="border: 1px solid black; padding: 5px; margin: 5px 0;"> <p>What number will make this number sentence true?</p> $4.52 + 3.68 = \square + 3.70$ </div>
2	<p>The numbers 100 and 2 in this question may be read aloud as they are embedded within the text. The numbers 50, 55, 70 and 220 must not be read aloud as they are not embedded within text.</p> <div style="border: 1px solid black; padding: 5px; margin: 5px 0;"> <p>Edward travelled 100 kilometres in 2 hours. What was his average speed in kilometres per hour?</p> <p> <input type="radio"/> 50 <input type="radio"/> 55 <input type="radio"/> 70 <input type="radio"/> 220 </p> </div>

3	<p>The number 39 889 in the question and the numbers 10, 100, 1000 and 10 000 in the options may be read aloud as they are embedded within text.</p> <div style="border: 1px solid black; padding: 10px; background-color: #f0f0f0;"> <p>The number 39 889 can be rounded in different ways. Which ways of rounding give the same answer?</p> <p><input type="radio"/> Rounding to the nearest 10 and nearest 100.</p> <p><input type="radio"/> Rounding to the nearest 10 and nearest 1000.</p> <p><input type="radio"/> Rounding to the nearest 100 and nearest 1000.</p> <p><input type="radio"/> Rounding to the nearest 1000 and nearest 10 000.</p> </div>
4	<p>The words <i>six hundred and eight</i> in this question must not be read aloud as they are italicised and relate to a numeric value.</p> <div style="border: 1px solid black; padding: 10px; background-color: #f0f0f0;"> <p>There are <i>six hundred and eight students</i> at Forest School.</p> <p><i>Six hundred and eight</i> can also be written as</p> <p><input type="radio"/> 608</p> <p><input type="radio"/> 68</p> <p><input type="radio"/> 6008</p> <p><input type="radio"/> 618</p> <p><input type="radio"/> 600</p> </div>

2.6 Reading the test administration script

It is important that all students across Australia receive uniform test instructions. The instructions and scripts in this handbook are standardised so that no student is advantaged or disadvantaged. No other instructions or assistance are to be given to students, except that permitted in Section 2.5 *Assisting students*.

You must **READ ALOUD** verbatim to students all instructions that appear in this handbook in shaded boxes, for example:

Step 1 READ ALOUD

Today you will complete a writing test.

Usually, all students in the session will be undertaking the same test. However, it is possible to have students in a session completing different tests; for example, in catch-up sessions. In this case, the appropriate scripts must be read to students taking the different tests. This could be accomplished by staggering start times for different cohorts or individual students.

3. TEST ADMINISTRATION INFORMATION

3.1 Test overviews

The following information provides an overview of each of the NAPLAN tests:

- **Writing:** an assessment of a student's ability to plan and write a text independently.
- **Reading:** an assessment of a student's ability to read, comprehend and respond to a variety of text types independently.

The materials included in the NAPLAN reading tests are intended to engage students and assess their literacy skills. Any views or opinions expressed in these test materials do not necessarily reflect the views and opinions of ACARA.

- **Conventions of language:** an assessment of a student's ability to independently recognise and use correct Standard Australian English spelling, grammar and punctuation in written contexts.

This test is composed of 2 sections: spelling followed by grammar and punctuation. The grammar and punctuation questions will only be available to students after they have completed the spelling questions. Students will not be able to return to the spelling questions once they have moved on to the grammar and punctuation questions. A screen at the end of the spelling questions will remind them of this.

- **Numeracy:** an assessment of a student's ability to independently apply mathematics knowledge and reasoning in context.

This test is composed of 2 sections: a non-calculator section and a calculator-allowed section. Students are not permitted to use their own calculator for any part of the test, unless provided as an approved disability adjustment.

The online calculator will only be available to students after they have completed the non-calculator section of the test. Students will not be able to return to the non-calculator section of the test once they have moved on to the calculator-allowed section. A screen at the end of the non-calculator section of the test will remind them of this.

Note: Prior to the tests, test administrators should receive any information related to disability adjustments, including students who require them, and any associated rules (such as scribe rules) from the NAPLAN coordinator. For further information, refer to section 6 of the *NAPLAN national protocols for test administration*.

3.2 Test durations and time allowed for each test

Writing*	Reading	Conventions of language	Numeracy
Year 7: 42 min	Year 7: 65 min	Year 7: 45 min	Year 7: 65 min
Year 9: 42 min	Year 9: 65 min	Year 9: 45 min	Year 9: 65 min

*For the online writing test, the timer starts as soon as the prompt is shown. The online writing test allows students an additional 2 minutes (compared to the paper writing test) to read/listen to the prompt, noting that for paper tests, students read and listen to the prompt as it is read to them by the test administrator before the test starts.

Time allowed for each test

For each test session, you will also need to allow an introduction time of approximately 15 minutes for students to settle in, have the test administration script read to them and, for the online tests, log into the NAP locked-down browser. The required test session time will also need to be adjusted for students who have been provided with disability adjustments.

Allocating time for the online writing test

Test administrators should encourage students to use their time as follows:

- reading/listening to the prompt: 2 minutes
- planning: 5 minutes
- writing: 30 minutes
- editing: 5 minutes.

3.3 Materials required

Prior to the test, make sure each student has:	The test administrator must have:
<ul style="list-style-type: none">• a device that meets the technical specifications for NAPLAN• their student session slip for the session• a blank sheet of paper for planning/working out• a pen or pencil• headphones (not required for reading test).	<ul style="list-style-type: none">• a device that meets the technical specifications for NAPLAN• the TA session slip (containing the test administrator login details necessary for generating the test session code)• extra blank paper• spare pens/pencils• a board to display the test session code• a list of students allocated to the test session (including details of disability adjustments) and the URL for the unsecured browser if necessary• this test administration handbook.

NAPLAN is primarily an assessment of learning, so the test environment must be tightly controlled to maintain test integrity. This includes the conduct of test administrators and support staff, and the removal of unauthorised materials.

The following items are **not permitted** to be taken into any test as they could affect the validity of the test:

- ✗ reading books, including dictionaries
- ✗ rulers
- ✗ mobile phones or any other devices that can connect to the internet, through either Wi-Fi or Bluetooth, or that can transmit, extract and display or read out data to the user
- ✗ protractors or mathematics templates
- ✗ calculators (unless provided as a disability adjustment)
- ✗ smart pens (for example, pens, pencils or stylus) capable of transcribing a student's handwritten response into digital text.

3.4 Before the tests

- Arrange the room so that students cannot see each other's work. Where students are in a collaborative workspace, temporary barriers may need to be put up between students or computers may need to be moved (for online tests).
- Take down, cover or reverse any posters, displays or teaching materials that might help students with the test.
- Check that devices are fully charged and/or connected to a power supply.

3.5 Creating a test session

- Open your browser and navigate to assessform.edu.au. For low-bandwidth schools, open the Remote application.
- Log into NAPLAN 2025 using the username and password from the TA session slip provided by the school NAPLAN coordinator.
- Select 'Create new test session'.
- The session code will be displayed at the top left-hand side of your screen in a grey box. Display the session code where students can see it (for example, write it on the board). The students will need the session code to enter the test session.

Note: Some functions on the test administrator's dashboard will remain inactive until students join the session and/or the session is started.

3.6 Scripts for administering the tests

Domain	Page number	Domain	Page number
Writing	12	Conventions of language	19
Reading	16	Numeracy	22

3.7 After the tests

- If any test attempt could **not be finished** because of a test disruption or a student left the session due to illness or injury, **you must leave their test attempt paused and must not finish their test attempt or finalise the test session**. Instead, log out and notify your NAPLAN coordinator.
- If a student logged in but refused to complete the test, you must finish the test attempt on behalf of the student on the test administrator's dashboard.
- If all test attempts have been finished, finalise the test session by selecting the 'Finalise session' button on the test administrator's dashboard.
- At the end of the test session, check that all student browsers have been closed and collect:
 - all student session slips
 - any slips containing the unsecured browser URL
 - all working-out or planning paper used by students.
- You **must** notify the NAPLAN coordinator if there were any:
 - absent students
 - students who refused to log in or logged in and did not attempt to complete the test
 - students who abandoned the test due to illness (medical or social/emotional conditions) or injury
 - test disruptions or incidents
 - paused test attempts
 - errors in the spelling of student names.
- You **must** return the TA session slip, student session slips and any other test materials to the NAPLAN coordinator (including any paper used by students during the test), to be kept secure until the test security period ends on Thursday 27 March.
- Recharge school-supplied devices for the next test session, if necessary.

4. TEST ADMINISTRATION SCRIPTS

4.1 Writing

Test time: 42 minutes

Create a test session as per section 3.5.

If any student has approval for a scribe, ensure that you have reviewed the scribe rules at section 2.4.

Step 1 READ ALOUD

Today you will complete the writing test.

You can use headphones for this test to listen to the writing prompt. You can also read it on your screen. You can look at the writing prompt at any time during the test.

You can use the blank sheet of paper on your desk for planning. It will not be marked but it will be collected after the test.

If you have any *questions* about what to do, put your hand up and I will help you.

If you have any *problems*, like your device doesn't work or your test doesn't load, put your hand up and I will help you.

Step 2 Go through the following steps with students, resolving any issues that may arise.

Ask students to:

1. Open the NAP locked-down browser (students allocated a disability adjustment code of AST or COL, or their support person, should type the URL for the unsecured browser into the browser and select enter).
2. Select 'NAPLAN 2025' (not applicable to students who are using an unsecured browser).
3. Complete the audio check.
4. Select 'Start test'.
5. Type the session code exactly as it appears on the board into the boxes.
6. Select 'Next'.
7. Type their student code from their student session slip into the boxes that appear.
8. Select 'Next'.
9. Check that their name and the year and test domain are correct, select 'Yes' and wait.

If the name or test presented by the system is not correct, take the following action:

- o If the name is simply spelt incorrectly, the student should select 'Yes'. Inform the NAPLAN coordinator of the inaccuracy after the session.
- o If a student has been given the student session code for another student in the same test session, the student should select 'No', and the 2 students must swap codes and re-enter them. Refer to section 2.2 'On test days' for advice where students in the same test session have the same name.
- o If a student has been given the student session code for another student in a different test session, or for a different test to the one scheduled, the student should select 'No', and you should inform the NAPLAN coordinator of the error as soon as possible. The student may need to be rescheduled if you do not have their correct student session slip.

For any other issues, please contact your NAPLAN coordinator as soon as possible.

Step 3 READ ALOUD

You will have 42 minutes to complete your writing. This includes time for reading and listening to the prompt.

Read or listen to the writing prompt first. It is suggested that you use the next 5 minutes to plan. I will tell you when 5 minutes has ended.

You can use your blank sheet of paper or the writing pane on your device to plan. You can draw a diagram to plan, or you can write down your main ideas or key words. You might like to plan by just thinking about what you will write. Choose the kind of planning that helps you to organise your ideas.

The writing prompt has words and pictures to help you think about what to write. However, you may use your own ideas **as long as you write about the topic on the prompt.**

Use the dot points on the writing prompt page to help you.

The blank piece of paper for planning will not be marked, but it will be collected.

Anything you type into the writing pane of your device **will** be marked if left in the writing pane. **Delete any planning notes that are not part of your final text before finishing your test.**

There is a timer in the top left-hand corner of your screen. It will flash when you have 10 minutes left and again when you have 5 minutes left. I will also tell you when you have 5 minutes left.

Once you have finished writing your text, you should check your work and then wait quietly.

If you select the 'Finish' button and there is still time left, you can select the 'Reopen test' button to go back into the test.

Do not include your name in your writing response. The online system knows who you are from your login details.

Once you have finished your test, wait quietly.

Step 4 Begin the test session by selecting the 'Start session' button on the test administrator's dashboard.

Step 5 READ ALOUD

You may start your test now. You must do your own work. You are not allowed to talk to other students.

Begin by reading or listening to the prompt, then start your planning. Planning can be done on your piece of paper or in the writing pane of your device.

Once you have read or listened to the writing prompt, select 'Start writing'. This will take you to the writing screen where you will complete your test.

Step 6 Students who arrive late to the test room can join the test session with full test time after it has been started by entering the test session code and their student code. These students' names will show in the 'Waiting entry' tab of the test administrator's dashboard and you must manually admit them.

Open the 'Waiting entry' tab and select the box to the left of the students' names. Then select 'Allow start'. The platform will provide the students with the correct amount of time to complete the test.

Actively supervise students to make sure they are planning their work independently. If a student is having difficulties, quietly encourage them to look at the writing prompt or listen to the instructions again. **Do not help students to develop or structure their writing.**

As test administrator, you **must not**:

- ✗ brainstorm with students
- ✗ allow students to discuss the topic
- ✗ give students ideas or pre-developed plans
- ✗ remind students of writing tasks or text structures completed in class prior to the test
- ✗ discuss any pictures that may be on the writing prompt
- ✗ write anything on the board other than the test session code
- ✗ plan for the students.

Step 7 After 7 minutes, READ ALOUD

7 minutes have now passed. If you haven't already done so, you should soon move on from planning to typing your text. You must complete your test in the writing pane of the computer.

Step 8 Actively supervise students to make sure they are on task.

Quietly speak to those students who are not working. Refer them to the writing prompt for ideas, **but do not help them with their ideas or their text.**

Students who finish early should be encouraged to re-read and edit their writing. When they have finished checking, they should sit and wait quietly. **They may not engage in "early finisher" activities, such as reading.**

If a whole class has checked their responses and selected 'Finish' before the allocated time, you may use discretion in managing the test environment and finalising the test session.

Step 9 After 32 minutes, READ ALOUD

You have 10 minutes left for this test. Try to complete your text in the next 5 minutes so that you have 5 minutes to check and edit your writing. If you have already finished, use this time to check your work.

Step 10 After 37 minutes, READ ALOUD

You have 5 minutes left. You can use this time to check and edit your work.

Check your writing by reading it carefully. You don't have time to make big changes. You can edit your work by adding or changing words or sentences. You can correct spelling or punctuation mistakes.

You can also use this time to complete your writing if you need to, but you will not be allowed any extra time for editing.

If you did your planning in the writing pane, you should delete any remaining notes.

When you have finished, wait quietly.

Step 11 Actively supervise students to make sure they are editing and completing their texts. Students may use this time to complete their writing; however, no additional time can be provided for editing.

Be mindful of students who may have been granted extra time due to a disability adjustment or a disruption. Alert these students when they have 5 minutes of test time remaining.

Step 12 When your dashboard shows that the time has expired for all students:

READ ALOUD

Thank you everyone. The writing test is now finished.

If you have already selected the 'Finish' button, you should have a message confirming that your test has been finished.

If you ran out of time to finish your test, you will now have a screen asking you to select 'Finish'. Please select 'Finish'.

Step 13 Walk around and check that all students have finished their tests.

Step 14 READ ALOUD

Leave your sheet of paper and your student session slip on your desk to be collected.

You should all now close the test browser.

End of test – refer to section 3.7 'After the tests' for further instructions.

4.2 Reading

Test time: 65 minutes

Create a test session as per section 3.5.

Step 1 READ ALOUD

Today you will complete the reading test.

You will not need headphones for this test.

You can use your blank sheet of paper to do your working out. It will not be marked but will be collected after the test.

If you have any *questions* about what to do, put your hand up and I will help you.

If you have any *problems*, like your device doesn't work or your test doesn't load, put your hand up and I will help you.

Step 2 Go through the following steps with students, resolving any issues that may arise.

Ask students to:

1. Open the NAP locked-down browser (students allocated a disability adjustment code of AST or COL, or their support person, should type the URL for the unsecured browser into the browser and select enter).
2. Select 'NAPLAN 2025' (not applicable to students who are using an unsecured browser).
3. Select 'I do not need to check my audio' (there is no audio component to the reading test).
4. Select 'Start test'.
5. Type the session code exactly as it appears on the board into the boxes.
6. Select 'Next'.
7. Type their student code from their student session slip into the boxes that appear.
8. Select 'Next'.
9. Check that their name, year and the test domain are correct, select 'Yes' and wait.

If the name or test presented by the system is not correct, take the following action:

- o If the name is simply spelt incorrectly, the student should select 'Yes'. Inform the NAPLAN coordinator of the inaccuracy after the session.
- o If a student has been given the student session code for another student in the same test session, the student should select 'No', and the 2 students must swap codes and re-enter them. Refer to section 2.2 'On test days' for advice where students in the same test session have the same name.
- o If a student has been given the student session code for another student in a different test session, or for a different test to the one scheduled, the student should select 'No', and you should inform the NAPLAN coordinator of the error as soon as possible. The student may need to be rescheduled if you do not have their correct student session slip.

For any other issues, please contact your NAPLAN coordinator as soon as possible.

Step 3 READ ALOUD

There are 48 questions in this test, and you have 65 minutes to complete them.

The test has 3 sections. At the end of each section, a message on your screen will ask if you would like to check your answers before starting the next section.

There is a timer in the top left-hand corner of your screen. It will flash when you have 10 minutes left and again when you have 5 minutes left. I will also tell you when you have 5 minutes left.

Once you have finished your questions, you should check your answers and then wait quietly.

If you select the 'Finish' button and there is still time left, you can select the 'Reopen test' button to go back into the test.

Once you have finished your test, wait quietly.

Step 4 Begin the test session by selecting the 'Start session' button on the test administrator's dashboard.

Step 5 READ ALOUD

You may start the test now. You must do your own work. You are not allowed to talk to other students.

Step 6 Students who arrive late to the test room can join the test session after it has been started by entering the test session code and their student code. These students' names will show in the 'Waiting entry' tab of the test administrator's dashboard and you must manually admit them.

Open the 'Waiting entry' tab and select the box to the left of the students' names. Then select 'Allow start'. The platform will provide the students with the correct amount of time to complete the test.

Actively supervise students to make sure they are on task.

Ensure that students are scrolling down where necessary to read the whole text. You should also monitor that students are answering questions in the correct way (for example, some questions may require students to move tiles or select multiple responses).

Students who finish early should be encouraged to check their answers. When they have finished checking, they should sit and wait quietly. **They may not engage in "early finisher" activities, such as reading.**

If a whole class has checked their responses and selected 'Finish' before the allocated time, you may use discretion in managing the test environment and finalising the test session.

Step 7 After 60 minutes, READ ALOUD

You have about 5 minutes left to finish the test. If you have already finished, use this time to check that you have answered all the questions.

Step 8 Be mindful of students who may have been granted extra time due to a disability adjustment or a disruption. Alert these students when they have 5 minutes of test time remaining.

Step 9 When your dashboard shows that the time has expired for all students:

READ ALOUD

Thank you everyone. The reading test is now finished.

If you have already selected the 'Finish' button, you should have a message confirming that your test has been finished.

If you ran out of time to finish your test, you will now have a screen asking you to select 'Finish'. Please select 'Finish'.

Step 10 Walk around and check that all students have finished their tests.

Step 11 READ ALOUD

Leave your sheet of paper and your student session slip on your desk to be collected.

You should all now close the test browser.

End of test – refer to section 3.7 'After the tests' for further instructions.

4.3 Conventions of language

Test time: 45 minutes

Create a test session as per section 3.5.

Step 1 READ ALOUD

Today you will complete the conventions of language test. This test has 2 sections: spelling followed by grammar and punctuation.

You will need headphones for the spelling section only.

You can use your blank sheet of paper to do your working out. It will not be marked but will be collected after the test.

If you have any *questions* about what to do, put your hand up and I will help you.

If you have any *problems*, like your device doesn't work or your test doesn't load, put your hand up and I will help you.

Step 2 Go through the following steps with students, resolving any issues that may arise.

Ask students to:

1. Open the NAP locked-down browser (students allocated a disability adjustment code of AST or COL, or their support person, should type the URL for the unsecured browser into the browser and select enter).
2. Select 'NAPLAN 2025' (not applicable to students who are using an unsecured browser).
3. Complete the audio check.
4. Select 'Start test'.
5. Type the session code exactly as it appears on the board into the boxes.
6. Select 'Next'.
7. Type their student code from their student session slip into the boxes that appear.
8. Select 'Next'.
9. Check that their name, year and the test domain are correct, select 'Yes' and wait.

If the name or test presented by the system is not correct, take the following action:

- o If the name is simply spelt incorrectly, the student should select 'Yes'. Inform the NAPLAN coordinator of the inaccuracy after the session.
- o If a student has been given the student session code for another student in the same test session, the student should select 'No', and the 2 students must swap codes and re-enter them. Refer to section 2.2 'On test days' for advice where students in the same test session have the same name.
- o If a student has been given the student session code for another student in a different test session, or for a different test to the one scheduled, the student should select 'No', and you should inform the NAPLAN coordinator of the error as soon as possible. The student may need to be rescheduled if you do not have their correct student session slip.

For any other issues, please contact your NAPLAN coordinator as soon as possible.

Step 3 READ ALOUD

There are 52 questions in the test: 25 of them are spelling questions and 27 are grammar and punctuation questions. You have 45 minutes to complete them all. It is suggested you use about 15 minutes on the spelling section.

At the end of each section of the test, a message on your screen will ask if you would like to check your answers before moving to the next section.

At the very end of the spelling section of the test, you will see a message asking if you are ready to start the next section. If you select 'No, I want to check my answers', you will be able to review or change your spelling answers or revisit flagged questions.

If you select 'Yes, I want to start the next section', you will go to the grammar and punctuation section of the test and will NOT be able to go back to see or change your answers in the spelling section of the test.

There is a timer in the top left-hand corner of your screen. The timer will flash when you have 10 minutes left and again when you have 5 minutes left. I will also tell you when you have 5 minutes left.

Once you have finished your questions, you should check your answers and then wait quietly.

If you select the 'Finish' button and there is still time left, you can select the 'Reopen test' button to go back into the grammar and punctuation section of the test.

Once you have finished your test, wait quietly.

Step 4 Begin the test session by selecting the 'Start session' button on the test administrator's dashboard.

Step 5 READ ALOUD

You may start the test now. You must do your own work. You are not allowed to talk to other students.

Step 6 Students who arrive late to the test room can join the test session after it has been started by entering the test session code and their student code. These students' names will show in the 'Waiting entry' tab of the test administrator's dashboard and you must manually admit them.

Open the 'Waiting entry' tab and select the box to the left of the students' names. Then select 'Allow start'. The platform will provide the students with the correct amount of time to complete the test.

Actively supervise students to make sure they are on task. Ensure that students are managing their time appropriately so they do not spend the whole test time on spelling – which will result in them not receiving a score for grammar and punctuation. Students who finish early should be encouraged to check their answers. When they have finished checking, they should sit and wait quietly. **They may not engage in "early finisher" activities, such as reading.** If a whole class has checked their responses and selected 'Finish' before the allocated time, you may use discretion in managing the test environment and finalising the test session.

Step 7 After 15 minutes, READ ALOUD

15 minutes have now passed. You should be nearing the end of the spelling questions and be moving on to the grammar and punctuation questions. Once you go to the grammar and punctuation questions, you cannot go back to the spelling questions.

Step 8 **After 40 minutes, READ ALOUD**

You have about 5 minutes left to finish the test. If you have already finished, use this time to check that you have answered all the questions.

Step 9 Be mindful of students who may have been granted extra time due to a disability adjustment or a disruption. Alert these students when they have 5 minutes of test time remaining.

Step 10 When your dashboard shows that the time has expired for all students:

READ ALOUD

Thank you everyone. The conventions of language test is now finished.

If you have already selected the 'Finish' button, you should have a message confirming that your test has been finished.

If you ran out of time to finish your test, you will now have a screen asking you to select 'Finish'. Please select 'Finish'.

Step 11 Walk around and check that all students have finished their tests.

Step 12 **READ ALOUD**

Leave your sheet of paper and your student session slip on your desk to be collected.

You should all now close the test browser.

End of test – refer to section 3.7 'After the tests' for further instructions.

4.4 Numeracy

Test time: 65 minutes

Create a test session as per section 3.5.

Step 1 READ ALOUD

Today you will complete the numeracy test.

This test has 2 sections: a non-calculator section followed by a calculator-allowed section.

You can use headphones for this test to listen to the worded part of the questions. The numbers and symbols will not be read unless they are part of the text in the question. I cannot explain the questions.

You can use the blank sheet of paper to do your working out. It will not be marked but will be collected after the test.

You cannot use your own calculator in this test. An online calculator will be available to you after you have completed the non-calculator section of the test.

If you have any *questions* about what to do, put your hand up and I will help you.

If you have any *problems*, like your device doesn't work or your test doesn't load, put your hand up and I will help you.

Step 2 Go through the following steps with students, resolving any issues that may arise.

Ask students to:

1. Open the NAP locked-down browser (students allocated a disability adjustment code of AST or COL, or their support person, should type the URL for the unsecured browser into the browser and select enter).
2. Select 'NAPLAN 2025' (not applicable to students who are using an unsecured browser).
3. Complete the audio check.
4. Select 'Start test'.
5. Type the session code exactly as it appears on the board into the boxes.
6. Select 'Next'.
7. Type their student code from their student session slip into the boxes that appear.
8. Select 'Next'.
9. Check that their name, year and the test domain are correct, select 'Yes' and wait.

If the name or test presented by the system is not correct, take the following action:

- o If the name is simply spelt incorrectly, the student should select 'Yes'. Inform the NAPLAN coordinator of the inaccuracy after the session.
- o If a student has been given the student session code for another student in the same test session, the student should select 'No', and the 2 students must swap codes and re-enter them. Refer to section 2.2 'On test days' for advice where students in the same test session have the same name.
- o If a student has been given the student session code for another student in a different test session, or for a different test to the one scheduled, the student should select 'No', and you should inform the NAPLAN coordinator of the error as soon as possible. The student may need to be rescheduled if you do not have their correct student session slip.

For any other issues, please contact your NAPLAN coordinator as soon as possible.

Step 3 READ ALOUD

There are 48 questions in the numeracy test, and you have 65 minutes to complete them.

You will begin this test with the non-calculator section. In this section there are 8 questions. At the end of the non-calculator section of the test, a message on your screen will ask if you are ready to start the next section. If you select 'No, I want to check my answers', you will be able to review or change your answers or revisit flagged questions.

If you select 'Yes, I want to start the next section', you will move on to the calculator-allowed section of the test and will NOT be able to go back and see or change your answers in the non-calculator section of the test.

The calculator-allowed section of the test is made up of 3 more sections. At the end of each section, a message on your screen will ask if you would like to check your answers before moving to the next section.

There is a timer in the top left-hand corner of your screen. It will flash when you have 10 minutes left and again when you have 5 minutes left. I will also tell you when you have 5 minutes left.

Once you have finished your questions, you should check your answers and then wait quietly.

If you select the 'Finish' button and there is still time left, you can select the 'Reopen test' button to go back into the calculator-allowed section of the test.

Once you have finished your test, wait quietly.

Step 4 Begin the test session by selecting the 'Start session' button on the test administrator's dashboard.

Step 5 READ ALOUD

You may start the test now. You must do your own work. You are not allowed to talk to other students.

Step 6 Students who arrive late to the test room can join the test session after it has been started by entering the test session code and their student code. These students' names will show in the 'Waiting entry' tab of the test administrator's dashboard and you must manually admit them.

Open the 'Waiting entry' tab and select the box to the left of the students' names. Then select 'Allow start'. The platform will provide the students with the correct amount of time to complete the test.

Actively supervise students to make sure they are on task.

If students ask you to read questions, you should encourage them to use the platform audio. However, you may read questions for them. Ensure you are familiar with what may and may not be read aloud to students. Refer to section 2.5 *Assisting students* for details and examples.

Students who finish early should be encouraged to check their answers. When they have finished checking, they should sit and wait quietly. **They may not engage in "early finisher" activities, such as reading.**

If a whole class has checked their responses and selected 'Finish' before the allocated time, you may use discretion in managing the test environment and finalising the test session.

Step 7 After 60 minutes, READ ALOUD

You have about 5 minutes left to finish the test. If you have already finished, use this time to check that you have answered all the questions.

Step 8 Be mindful of students who may have been granted extra time due to a disability adjustment or a disruption. Alert these students when they have 5 minutes of test time remaining.

Step 9 When your dashboard shows that the time has expired for all students:

READ ALOUD

Thank you everyone. The numeracy test is now finished.

If you have already selected the 'Finish' button, you should have a message confirming that your test has been finished.

If you ran out of time to finish your test, you will now have a screen asking you to select 'Finish'. Please select 'Finish'.

Step 10 Walk around and check that all students have finished their tests.

Step 11 READ ALOUD

Leave your sheet of paper and your student session slip on your desk to be collected.

You should all now close the test browser.

End of test – refer to section 3.7 'After the tests' for further instructions.

APPENDIX 1: NAPLAN CODE OF CONDUCT

The following is an extract from the *NAPLAN national protocols for test administration* (section 2), which outlines the NAPLAN code of conduct. Test administrators must be fully aware of, and adhere to, the NAPLAN code of conduct. References in the NAPLAN code of conduct refer to sections in the *NAPLAN national protocols for test administration*.

2.1 Overview

- 2.1.1 The NAPLAN code of conduct is designed to uphold the integrity of the tests by outlining the fundamental principles upon which the test administration is based. Undermining test integrity by breaching these principles or the protocols will lead to an investigation and, if allegations are substantiated, to potentially serious consequences.
- 2.1.2 This code provides a summary of acceptable and unacceptable behaviours. At all times, educators must ensure that tests are administered in a way that is fair and equitable for all students, to provide an accurate assessment of students' capabilities at the time of testing.

2.2 Participation and accessibility

- 2.2.1 NAPLAN is a national assessment, and all eligible students in Years 3, 5, 7 and 9 are expected to participate. NAPLAN should be accessible to all eligible students to allow them to demonstrate their skills and knowledge.
- 2.2.2 Students must sit the NAPLAN tests for the year level in which they are enrolled at school. Students must not sit a test for a year level they are not enrolled in.
- 2.2.3 Students in ungraded classes, who are equivalent in age to students in Years 3, 5, 7 and 9, are expected to take the relevant year-level NAPLAN tests.
- 2.2.4 Students with additional needs should be granted the use of appropriate disability adjustments to access assessments.
- 2.2.5 It is unacceptable to exert influence on parents/carers to withdraw their children from testing.

2.3 Test integrity

- 2.3.1 NAPLAN is primarily an assessment of learning, so the test environment must be tightly controlled to maintain test integrity. This includes the conduct of test administrators and support staff, and the removal of unauthorised teaching or support material.
- 2.3.2 The integrity of the tests must be maintained at all times; cheating is not permitted.
- 2.3.3 The test environment must neither advantage nor disadvantage any student.
- 2.3.4 Tests should be appropriately administered. In deciding what is appropriate, principals should take into consideration the time, location, supervision and technical support requirements, where applicable, for the test sessions.
- 2.3.5 Active supervision of students during the tests is required (see also section 8.5.6 for guidance on the appropriate student to test administrator ratio).
- 2.3.6 Providing unauthorised assistance to students during the tests is not permitted.
- 2.3.7 Providing unauthorised additional time for the tests is not permitted.

- 2.3.8 Allowing students access to unauthorised materials and aids during the tests is not permitted.
- 2.3.9 Allowing students unauthorised internet access is not permitted.
- 2.3.10 Test administrators should ensure their actions before, during and after the tests do not impact on students' results.
- 2.3.11 Any attempt by school staff to manipulate test results is not permitted.
- 2.3.12 Any attempt by any party to modify an answer after the test is completed by the student is not permitted.

2.4 Test preparation

- 2.4.1 Schools and teachers should adopt appropriate test preparation strategies that familiarise students with the test process and question formats (including alternative format special print where applicable), but do not excessively rehearse students such that results reflect prepared work rather than students' own abilities.
- 2.4.2 The best preparation schools can provide for students is teaching the Australian Curriculum, as implemented in all states and territories.
- 2.4.3 Any actions that compromise the ability of students to produce results that reflect their own unrehearsed knowledge and skills are inappropriate.
- 2.4.4. The preparation of possible responses for any test is inappropriate.
- 2.4.5 Any attempt by students to gain an unfair advantage is inappropriate.
- 2.4.6 For schools delivering online tests, principals must ensure that all students are familiar with the functionality of the online NAPLAN tests and range of item types in each domain.
- 2.4.7 For schools delivering online tests, principals must ensure that all students are familiar with the type of device that they will be using for NAPLAN and ensure students use a supported device and equipment. This includes external keyboards for tablets and headphones for items containing audio files. For more information about device requirements, please refer to resources available at assessform.edu.au.

2.5 Test security

- 2.5.1 The security of the tests is critical to ensure that students' individual results accurately reflect their abilities. Test materials must be kept secure to avoid any premature disclosure of content or unauthorised disclosure of test materials at any time (including on social media – see section 4.3.13).
- 2.5.2 The security and confidentiality of the test materials must be maintained from the time they are delivered to the school, generated or made accessible via the platform, to the end of the test security period (see section 1.2.1). Test materials are defined in section 12. Schools delivering tests via the low-bandwidth solution must keep any records as required by their TAA.
- 2.5.3 The content of NAPLAN tests must not be disclosed prior to or during the test window or test security period. For more details on the post-security period use of test materials, see section 4.3.15.
- 2.5.4 Tests must not be conducted outside the secure school location unless prior permission has been granted by the TAA.

- 2.5.5 All secure test materials, including student session codes, test session codes, used and unused Year 3 writing tests, alternative format (paper) and alternative format (special print) tests and stimulus materials, must be secured and returned to NAPLAN coordinators immediately after each test session. Materials must not be left in the possession of test administrators, or in classrooms or other unsecured storage areas. For the handling of used and unused Year 3 writing tests, alternative format (paper), alternative format (special print) tests and reading stimulus materials following testing, see section 8.8.6.
- 2.5.6 Schools completing online tests should ensure that each student has finished their test attempt and closed their browser at the completion of each test session. NAPLAN coordinators must ensure that all students' test attempts (including postponed attempts) are finalised at the completion of the testing window.
- 2.5.7 Schools using a low-bandwidth application can expect finished test attempts to reconcile automatically when the test administrator finalises the test session, the NAPLAN coordinator next logs in to the Remote application on their device and internet connectivity is available.
- 2.5.8 Schools completing alternative format (paper or special print) tests should ensure that completed materials are stored securely in such a way that cannot lead to allegations of tampering with responses prior to their collection or return for marking. All unused alternative format (paper and special print) materials must be returned or destroyed, following TAA instruction.
- 2.5.9 Schools must not copy, store, transcribe or transmit tests or student responses, or cause responses to be recorded by any means, including electronic means, except as outlined by these protocols.

2.6 Effective communication

- 2.6.1 Effective communication at all levels is essential for the efficient and transparent delivery of the tests.
- 2.6.2 Principals, their delegates and all relevant staff must read and understand the *2025 NAPLAN Handbook for principals and NAPLAN coordinators*. Schools must also ensure that relevant staff read and understand the relevant *NAPLAN test administration handbook for teachers*.
- 2.6.3 Failure to read or become aware of these protocols and documents is not a valid reason for breaching protocols.
- 2.6.4 Principals, NAPLAN coordinators and test administrators must adhere to the instructions outlined in the relevant *2025 NAPLAN Handbook for principals and NAPLAN coordinators* and the relevant *NAPLAN test administration handbook for teachers*. Principals should seek clarification from their TAA if unsure of any points.
- 2.6.5 Dishonest and inappropriate practices should be actively discouraged and will not be tolerated. Allegations of breaches of the protocols should be reported promptly.
- 2.6.6 It is the responsibility of the principal to ensure parents and carers are fully informed about the program.

APPENDIX 2: DISABILITY ADJUSTMENT CODES

The following table shows the available disability adjustment codes (DACs), the online assessment platform adjustment and the action required during the test session by test administrators. The right-hand column shows the relevant section of the *NAPLAN national protocols for test administration* where you can find more information.

The principal or NAPLAN coordinator is responsible for adding and updating DACs to students' tests and for the scheduling of tests.

Adjustment	Approval by	DAC	Comment	Section
Adjustments requiring alternative format (special print) tests				
Braille	TAA	OFF	Student will sit a paper-based version of the NAPLAN tests.	6.7
Large print	TAA	OFF		6.8
Black and white masters	TAA	OFF	For schools administering online tests: <ul style="list-style-type: none"> • Ensure "OFF" DAC is assigned to student's test. • The "OFF" DAC cannot be used in conjunction with a DAC that implies the student is sitting an online test (i.e. AIA, AIV). • Change participation status to "Alternative Format" once test is completed. 	6.9
Electronic PDF test	TAA	OFF		6.10
Adjustments providing additional support				
Scribe	TAA	SCR	Writing test only. Ensure test environment arrangements do not impact other students. All scribe rules must be followed, including completion of the spelling test, for the student to receive a mark for the writing test.	6.11
NAPLAN support person	School	SUP	Reading, Conventions of language and Numeracy tests only. Ensure test environment arrangements do not impact other students.	6.12
Oral/sign support	School	OSS	Ensure test environment arrangements do not impact other students.	6.13
Rest break	School	RBK	Test administrator must pause student's test attempt on the dashboard when break commences and resume test attempt when student returns from their rest break. Students must not engage with test materials during the rest break.	6.14

Adjustment	Approval by	DAC	Comment	Section
Adjustments providing extra time				
Extra time – one minute for every 6 minutes of test time	School	ETA	Platform will automatically allocate extra time. Combinations of extra time DAC must not be applied to the same test.	6.15
Extra time – one minute for every 3 minutes of test time	School	ETB		
Extra time – one minute for every 2 minutes of test time	School	ETC		
Extra time – double total test time (for online schools)	TAA	ETD	Ensure timing allowed for test session caters for total duration of tests for students with extra time.	6.16
Assistive technology				
Assistive technology (unsecured browser: TAA will provide link)	TAA	AST	Students will require additional supervision to ensure they are not using prohibited functionality, such as external websites or calculators. Spelling and grammar checks, dictionary, predictive text, and any functionality or applications that enable a possible advantage must be turned off.	6.17
Assistive technology (compatible with locked down browser)	School	–	Assistive technology that does not require an unsecured browser and is compatible with the test construct (for example, ergonomic mouse, bluetooth headphones, classroom communication devices) does not require TAA approval. There is no DAC for these assistive technologies.	
Adjustments providing alternative items				
Alternative items – audio	School	AIA	Platform will automatically swap audio items for alternative items.	6.19
Alternative items - visual	School	AIV	Platform will automatically swap visually detailed items for alternative items.	
Adjustments providing alternative colour themes				
Black text with white background	School	BNW	Platform will automatically apply the chosen colour theme ("BNW", "BNB", "BNL", "BNG", "BNY"). Combinations of alternative colour theme DACs must not be applied to the same test.	6.20
Black text with blue background	School	BNB		
Black text with lilac background	School	BNL		
Black text with green background	School	BNG		
Black text with yellow background	School	BNY		
White text with black background (if unsecured browser is necessary: TAA approval required. TAA will provide link)	TAA	BNW + COL	Use "BNW" and "COL" DACs with system settings to invert colours for white text with black background. Follow student's usual process to set up screen inverting via device.	

Adjustment	Approval by	DAC	Comment	Section
Colour contrast modification (unsecured browser: TAA approval required. TAA will provide link)	TAA	COL	Where the above colour themes do not meet a student's needs, COL can be used to allow students to access their usual device and settings. Students will require additional supervision to ensure they are not using functions prohibited by the <i>NAPLAN national protocols for test administration</i> , such as external websites or calculators. Spelling and grammar checks, dictionary and predictive text must be turned off.	6.18

APPENDIX 3: TECHNICAL ISSUES TEMPLATE

Technical issues template (to be used if required)				
Date				
School name				
School code				
Person calling				
Contact number				
Description of issue				
Technical details	Exact time/date issue occurred:			
	How many devices are affected?	Single device <input type="checkbox"/>	Many devices <input type="checkbox"/>	
	Is the NAP locked-down browser being used?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	
		Managed	BYOD	
	Type of device	Desktop	<input type="checkbox"/>	<input type="checkbox"/>
		Laptop	<input type="checkbox"/>	<input type="checkbox"/>
		Tablet	<input type="checkbox"/>	<input type="checkbox"/>
	Operating system (if desktop/laptop)	Windows 10 or later	<input type="checkbox"/>	
		macOS 10.15.4 or later	<input type="checkbox"/>	
	Operating system (if tablet)	iOS 15 or later	<input type="checkbox"/>	
		Chromebook version 90 or later	<input type="checkbox"/>	
	Network connection	Wireless	<input type="checkbox"/>	
Ethernet cable		<input type="checkbox"/>		
NEXT STEPS	<i>Record the serial number of the affected device(s) in case log files need to be exported.</i>
